Endi Rexhepi

Computer Science Student | AI Engineering

endirexhepi5@gmail.com +4917663227870 Bremen, Germany https://github.com/Endi-Rexhepi

Summary

Third-year Computer Science student at Constructor University Bremen. Hands-on experience with data pipelines, machine learning models and LLM prototyping from an AI/ML internship, plus systems and web projects in Python and JavaScript.

Education

Constructor University Computer Science
Bremen

Relevant coursework: C/C++, Algorithms & Data Structures, Computer Architecture, Operating Systems

- Sep 2024 - Aug 2027 (expected)

Skills

JavaScript	**Python**	**C/C++**	**React**
HTML5	**CSS**	**Bootstrap**	**Node.js**
Express	**REST APIs**	**JWT**	**MongoDB**
SQL	**Git/Github**	**Postman**	**Linux**
Computer Networking	**Socket Programming**	**TLS/SSL**	**Numpy**
Pandas			

Projects

Remote Access — Secure Remote Desktop Tool (Python) Sep 2026 – Present

- Built a remote desktop tool from scratch with Python's standard socket and ssl libraries: one PC shares its screen, the other controls it with mouse and keyboard
- Secured it with TLS and certificate pinning, argon2 password hashing, and IP blocking after 3 failed logins
- Added a consent prompt, an on-screen "being controlled" indicator, a kill-switch hotkey, input validation and logging
- Tech: Python, sockets, TLS/SSL, argon2, OpenCV, pynput, tkinter, threading

Dreadfort — Press & Play Game Jam, 5th Place Apr 2026

- Built a 7-level medieval dungeon crawler in 72 hours with my teammate
- Features narrative progression, boss fights, and local multiplayer for 1–4 players
- Tech: JavaScript, HTML5 Canvas · Competed against 13 submissions
- Play: erexhepi.itch.io/dreadfort

Experience

LAWCON Consulting Essen(Remote)
Artificial Intelligence Engineer Jun 2026 – Present

- Cleaned and structured datasets and built data pipelines in Python (pandas) and SQL
- Trained and evaluated classification models with scikit-learn and fine-tuned pretrained models for specific tasks
- Prototyped features based on large language models, using Git and team code review

Flaschenpost Bremen

Warehouse Worker Feb 2026 – Present

- Pick, pack and sort customer orders and manage inventory placement alongside full-time studies

IDRA Research & Consulting Albania, Tirana

IT Assistant Jul – Sep 2023

- Maintained and updated company IT inventory across departments
- Assisted with maintenance of IT systems, hardware, and equipment
- Performed structured data entry for IT documentation and reporting

Certifications

Software Development

Certificate of Achievement — Software Development (Web Fundamentals, MERN, Algorithms) · Coding Dojo

Press & Play Game Jam

5th Place Finalist — Press & Play Game Jam · Constructor University Bremen (Apr 2026)

Genius Olympiad

Certificate of Participation — Genius Olympiad · Rochester Institute of Technology, New York (Jun 2023)
